ENTREPRENEUR

GOVERNMENT OF INDIA

IN THE Research Research Centre Kalkatam P O Chingleput Dist., Tamil Nadu.

ESTABLISHMENT

covering all types of machines. Should be familiar with all types of jigs and fixtures tools

23. Tradesman 'B' (Plant Operations)
Qualification B Experience SSILC passed with

and working instruments used in Full /fired more than 30% time. Candidates with two years experience in any of the following fields are eligible for consideration. In a reported chemical plant will be preferred.

34 Trade/Born B (Glass Blower) Qualification & Experience. SSC passed with a certificate of a course of minimum one year duration in Filter/Welder trade from ITI. 15 years out of which 6 years should be in a glass blowing trade. Candidates with a diploma/below Diploma in Mechanical Engineering (3 years after SSC) from a recognized institute. Candidates with two years experience in the field mentioned below will be preferred.

35 Trade/Born B (Laboratory) Qualification & Experience. SSC passed with more than 50% marks. Candidates with two years experience in any of the following fields are eligible for consideration. In a reported laboratory chemical analysis and operations. B (Hosiery)

experience involving use of various types of machines like plate bending machine, shearing machine, etc. Candidates with welding fabrication shop. Should possess a thorough knowledge in all types of welding and procedures for qualification of welders. Should be able to design and construct tanks, pressure vessels and structures.

25 Tradesman (D) SSU Electrical Qualification Certificate or equivalent from a recognised man's Competency certificate with a minimum of nine years experience in the operation and maintenance of electrical equipment such as connecting of circuit breakers, transformers control panels etc.

26 Tradesman (D) Cable Joiner, Qualification Certificate or equivalent from a recognised man's Competency certificate with a minimum of nine years experience. Or Wire and cable jointing work with a minimum of five years experience in high voltage cable jointing works with PILC & PVC cables. Only those candidates who have worked in cable jointing

treatment and fabrication in a metallurgical laboratory or industry who are experienced in working at hot spots at the workplace are likely to be considered for a lower post of tradesman (A). Note: Candidates should specify the job chosen i.e. (A) or (B) in the application form.

35 A Tradesman (H) Telephone Mechanic, Qualification Certificate or equivalent from a recognised organisation in maintenance of automatic telephone exchange.

36 Foreman (Electrical) Qualification A diploma in Electrical Engineering (3 years after matriculation) or equivalent from a recognised institution in any of the following fields: (a) Erection testing and commissioning of high voltage air insulated busbar systems, overhead transmission towers, transformers, isolators and controls. etc. (b) Erection testing and commissioning of electrical apparatus containing oil, e.g. transformers, reactors, capacitors, etc. (c) Cable laying, termination, repair, etc.

will be considered. Candidates with working experience of mineral insulated cables will be preferred.

Trade Man (C) Qualification: SSSC passed with more than 60% marks in Science subjects or SSSC appeared plus a certificate of completion of a course in Electrical Engineering/Fitter/Welder trade from ITI. Experience: Eight years out of which at least four years should be in the field of mineral insulated cables, welding methods in a fabrication shop of heavy industry.

Trade Man (C) Qualification: SSSC passed with more than 60% marks in Science subjects or SSSC appeared plus a certificate of completion of a course in Electrical Engineering/Electronics/Instrument trade from ITI. Experience: Four years in assembly operation and repair of electrical equipment and electrical wiring, electrical or electronic work shop or cable jointing and testing of HT/LT cable. Note Candidates should specify the field chosen for interview.

Foreman (Mechanical) Qualification: A Diploma in Mechanical Engineering (3 years) or SSSC passed with more than 60% marks in years in erection, testing and commissioning of centralised refrigeration plants, high capacity centrifugal pumps and handling of steam piping. Note: Candidates who are not found suitable at the interview are likely to be considered for a second interview.

Assistant Foreman (welding), Qualification or Experience: SSSC passed with a certificate of a course of minimum one year in welding or 10 years of experience in the field mentioned below out of which 5 years should be in a supervisory capacity or a certificate of completion of a course (3 years after SSSC) from a recognized institute.

3. Tradesman - C (Instrument Mechanic) - SSI passed with more than 80% marks in Science subjects. Experience - Four years in Installation calibration and repair of electronic process instruments. Candidates with experience in process Industries will be preferred. If the candidate has not worked in process industry for this post they are likely to be considered for a lower post of Tradesman (B).

4. Tradesman - C (Instrument Mechanic) - Qualification & Experience - SSI completed with a certificate of a course of minimum one year duration in Instrumentation plus experience in assembly and maintenance machines (A) in a large machine and fabrication shop of C machine like compressors, pumps, etc. in a reputed organisation. Note: Candidates with two years experience in the field will be considered for the post of Apprentice Should be capable of performing all types of welding including metal and TIG welding. Should be capable of carrying out all types of welding qualification and inspection procedures. Should be capable of training welders for qualifying per ISO 9000 standards. Should be capable of signing in Mechanical Engineering with experience of minimum four years in the field are likely to be considered for a higher post.

5. Assistant Foreman (Process Qualification & Experience) - SSI passed with a certificate of a course of minimum one year duration in Instrumentation plus experience in Fit trade from ITI plus 18 years experience in the field mentioned below or 20 years experience in the field mentioned above or any diploma in Mechanical Engineering (3 years after BSLC) from a recognised institution.

Tradesman C (Plant Operator)
Qualification: SSC passed with more than 50% marks in Science subjects. Experience: A minimum of four years in the industry. Duties: Operate chemical plants and pumps to manufacture chemical products by the application of different types of plants and use of process instruments and must know methods of handling chemicals in particular acids, or (b) in the field mentioned above will be preferred. Field of experience: Erection of chemical process equipment in a reputed industry like petrochemical or fertilizer. Education: Graduate in chemical engineering and of plant piping, electro welding, and instruments and testing.

Assistant Foreman (Instrumentation)
Qualification & Experience: SSC passed with more than 50% marks in Science subjects. Duties: Installation, instrument trade from IIT plus

15 years of experience in the following field out of which 6 years should be in a supervisory capacity. Field and laboratory experience in the design and installation of process instruments in a reputed industrial organization. Candidates experienced in chemical industry will be preferred.

41. Tradesman (D) (pipe fitter). Qualification: SSC passed with more than 60% marks in Science subjects or SSSC passed

29 Tracer Qualification & Experience: SSC passed with English & Science and three years experience as Tracer. In a report of establishment, the following list of duties of course A of minimum one year duration in drawing or painting will be preferred

30 Tradesman 'B' (Inspection) Qualifica
Can SSC passed with more than 2% marks or SSC equivalent. The following list of course of minimum one year duration in Tracer

31 Tradesman 'C' (Welder) Qualifica
plus a certificate of a course of minimum one year duration in Tracer trade from the following list of duties of course A of minimum one year duration in drawing or painting, bending, fitting edge preparing fitting threading, fitting installation and repair of all piping work and related equipment. Note: Candidates who are not suitable for the above duties who are interviewed are likely to be considered for a lower post of Tradesman (C)

32 Tradesman 'C' (Welder) Qualifica

Machine tool trade from ITI. Preference will be given to those having two years experience in inspection in the field or having a minimum of two years experience in inspection in a machine shop. Candidates should be familiar with the use of different types of measuring instruments and inspection methods.

Trade Association: Trade Association (Phisicum-Markner). Qualification: Experienced: VIT Standard passed Or above up to SSIC with

[illegible]

accommodation if available in the DAU Township near Kelpekum on payment of license fee. Married employees (all accommodation being available) and unmarried employees will be provided with hospital accommodation on sharing basis on payment of license fee. Candidates called for interview from out station for the post of SO/SD SO/SC or SO/SB only will be paid and the fee/return by Second Class. Each application should be accompanied by a non refundable crossed Indian Postal Order payable to the account of Kelpekum (Rs. 100/- for SO/SC SO/SC S.A. C and Foreman and for Rs. 2/- (Rs. 10/- for SC S.C candidates) for all other posts. Disabled Defence Service personnel and dependents of the Defence service

Personnel killed in action are exempted from attaching POSTAL orders in respect of their applications.
All servicesmen are exempted from attaching postal orders in respect of their applications.
All persons other than A, B, No. 10 to 11 and 39 & 37. Reservation of posts for disabled army
personnel as well as men and SC & ST candidates will be made in accordance with the orders
of Government. Application forms can be obtained by post from Assistant Administrative
Officer (A) Reactor Research Centre Kolkapam Post (603 102), Chinnappudai Taluk, Tamil
Nadu by sending a self addressed envelop (25 cm x 10 cm) with 40 paise stamps affixed
ad thereon. Please send the advertisement number and the post applied for. Separate application
is required for each post.
